Care with Sympathy

Simple**M**ar
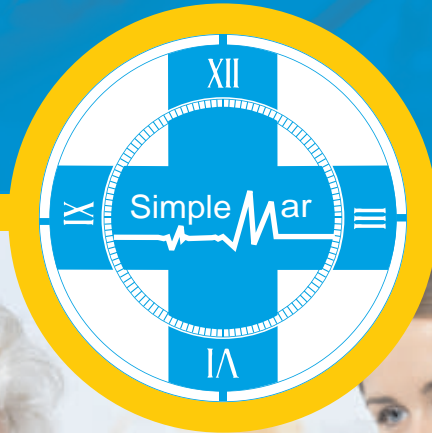

What is SimpleMAR?

SimpleMAR is an enterprise solution developed by team of pharmacists, long term care providers and nurses. Our mobile first approach using scalable cloud-computing technologies allows user to access system from anywhere, anytime and on-the-go. As our name suggests, our simplified deployment and easy to use workflow allows caregivers to start using our software instantly, regardless of their computer proficiency.

SimpleMAR's high performance software is fully integrated with major pharmacy systems. Its check and balance techniques reduce any potential errors and provide accurate reporting to enhance your profitability. Whether you are using your phone, tablet or computer, our system gives you secure and state-of-the art interface to do your tasks efficiently and effectively.

It simply means SimpleMAR = focus on your core business + provide best care.

Why SimpleMAR?

SimpleMAR is modern digital age software that works on any platform or device. Biggest problems nursing homes and facilities facing today are to maintain paper MARs or deal with complex electronic MAR systems. SimpleMAR addresses both issues and provides some unique features and advantages that differentiate it from its competitors.

- No costly investment in hardware
- Easy to learn and user friendly. No prior computer proficiency required.
- Increases efficiency and reduces potential errors.
- Being cloud software, it eliminates need of carrying bulky paperwork and still provides instant access to medication and physician's orders, resident health care information as well as MAR's.
- Having interfaces to major pharmacy systems, it allows two-way communication between pharmacy and nursing facility.
- It is built with performance, security and scalability in mind.

SimpleMAR Features and Services

- Detailed but simple med pass report for each resident, showing percentage on daily, monthly or yearly basis.
- Print resident demographics, med pass reports, missed medication reports, exception reports, and other state regulatory and compliance reports.
- Timely reminders of medications, ADLs and events with snoozing capabilities. Reminder time can be customized for each medication, treatment or vital.
- Manage human errors by requesting change to administrators and fixing holes.
- Request new or refill of medication orders directly to pharmacy.
- Suspend, Hold or discontinue orders.
- Centralized face sheet provides the entire profile for each care recipient.
- Capabilities to send secure communication to users within facility without leaving software.
- Access residents, orders and medications based on assigned roles and permissions. Roles and permissions are fully configurable by administrators. We also provide pre-defined roles for your convenience.
- Manage patient's records, including name, room number, responsible party information, insurance information, diagnoses and allergies.
- Easy and quick access to additional drug clinical information.
- Manage and track daily living activities (ADL), such as bathing, dressing, toileting, walking, exercises etc.
- Charting notes allows entering resident specific instructions or information.
- Ease of use by seamlessly allowing navigation between different modules.
- Track changes performed by any user on any module.
- 24/7 support available by online ticketing system. Conveniently track and manage all your previous issues anytime anywhere. Online help and FAQ document available for any common questions and issues.

SimpleMAR Advantages

- Saves significant time and cost by eliminating lengthy and manual paper MARs.
- No special hardware requirement reduces overall maintenance cost. Securely access system from any authorized device – phone, tablet or personal computer.
- Automatic updates and upgrades available at no additional cost. No extra download or setup required.
- Comprehensive reports provide in-depth statistical and analytical data for wide range of activities like MedPass, ADLs, exceptions etc. That enables management and administrators to take corrective actions to improve overall facility performance along with providing best health care for their residents.
- Automatic archival and easy retrieval of resident and medication records even after resident leaves the facility.
- Simplify and reduce med pass process time by as much as 75%.
- Prevents unauthorized access for any user using system via any non-approved devices.
- Full history of any changes available for auditing and archival.
- Helps improve facility's reputation and ratings by providing quality of care using our constant evolving software.
- No matter where you are within the United States or expand in the future, we support all time zones.
- Allows your staff to focus on their core activities that is taking best care of your residents.

SimpleMAR Training and Support

Our training staff can quickly get your team going with our software regardless of your team's technical skills. Our goal is to ensure that you use our system in fullest capabilities. However, in case of any issue or concerns, our dedicated support team is here to help!

We provide 24/7 support with quick response. We have state of the art incident tracking system that allows you to submit a new ticket, view any previous tickets and follow ups. We have large online knowledge base and FAQs that you can take advantage of.

Our support team helps you to get onboard, making sure you have smooth transition whether you are coming from paper MARs or any other eMAR system. Once we onboard, we don't let our hands go either. We diagnose and monitor time by time to make sure our system is more and more beneficial as you use.

We always value our customer feedback and we take it very seriously. That helps to enhance and improve our system. However, any time we add new feature we provide personalized coaching for all our existing and new customers.
